Going Over List of Missing Women Furnished by New York Police.

(Special from United Press.)
Islip, L. I., Oct. 20.—Coroner Savage and the Suffolk County authorities are to-day going over the list of missing women furnished by the New York police in the hope of finding one who will answer the description of the skeleton found near the Bentwood road. They are convinced that a brutal murder was committed and further, that the victim was a woman ther, that the victim was a woman in very good circumstances. They base this belief on the fact that what remains of the clothing was of excel-ient materials while the under gar-ments were of the most expensive kind. The black slik corsets found on the skeleton are declared by experts to have been made to order and to have cost not less than fifty dollars. Coroner Savage to-day communicated with a New York firm which makes a specialty of this character of gar-ments to see if they can recognize

"To order that I may not be regarded as prejudiced against the dogma of vaccination I will preface my remarks with the confession that I remarks with the confession that I was at one time myself a confiding dupe of the 'tradition of the dairy mails.' While attending medical college I was told that innoculation with cow pox virus was a certain preventive of small-pox, and like most other medical students I accepted with child-like faith and credulity the dictum of my teachers as to much infallible wisdom. After an experience derived from treating a number of cases of post-vaccinal small-pox in patients who gave evidence of having been recently and successfully vaccinated, I lwoke to a realization of the unpleasant fact that 'protective vaccination' was not all that was claimed for it. I thereupon began a study of the vaccination problem in all its bearings. After several vears of reading, observation and experience I became fully convinced that 'sucheat advertising and usher at my own charge.

SCALP ITCHED AND

Child of Four Would Scratch Her g Head for Hours - When Fifteen It Got Worse - Hair Came Off in Spots - Hundreds of Dollars Spent in Vain - Cuticura Soothed Like Cold Water on a Burn and

CUTICURA REMEDIES CURED HER AT LAST

"When I was four years old a humor came out on my scalp. It would make a thick scab in one night, itching and burning terribly. My father spent many hundreds of dollars trying to find a doctor who could cure this humor, but none of them could ever help it even a little bit. At the age of fifteen years I had the measles, and after that the sore became maturated and I had to soak my hair out before I could comb it. My hair came off in spots and my head was in a bad shape.

"About this time a friend of my father suggested he try Cuticura for me. My father took this advice and bought the Cuticura Soap. Cuticura Ointmen and Cuticura Resolvent. I used them faithfully and to my surprise they stopped the itching at once, like old water to a burn. In a week my head was clean from the scab but was very red and inflamed, but I had experienced more relief from the terrible itching and burning than ever before. I did not expert to be cured, as I thought that nothing could do that, but I had to use somewhing all the time and Cuticura was cheaper than doctors.

"After some time, to my surprise, I have to be cured, as I thought that nothing only the fact that my head was cheaper than doctors.

"After some time, to my surprise, I have the to be cured as though I had never suffered. I am now forty-two and have never had any sign of my old trouble since I was cured. I owe health, happinese and life to Cuticura. Every one thought it was incurable. I used to dream sometimes that I was cured but though it had never suffered. I am now I orty-two and have never had any one true. Fancy a child sitting up in bed until ten or eleven o'clock scratching her head!
